

A Message from the Superintendent – Vaccine for SEL Staff Dose #2

Dear Families,

As you are likely aware, Ohio has made school personnel a priority for the COVID-19 vaccine to reduce the risk of exposure in schools for our educators, staff and students. The Ohio Department of Health has begun the process for the school vaccination program in partnership with the state's educational service centers and numerous providers. This process is a two-dose process to be fully vaccinated.

Our staff will receive their second dose on Wednesday, March 3 at the Cuyahoga County Educational Service Center of Northeast Ohio. Due to the volume of school employees being vaccinated and the possible side effects we will be altering school plans for a couple of days.

Wednesday, March 3 and Thursday, March 4, will be asynchronous learning days for ALL SEL Students. Students should log into their Schoology account and complete the work assigned by their teacher(s). There will be NO transportation or food services available on March 3 and March 4. The Right at School childcare program will not be available on those two days as well.

Regular school schedules will resume on Friday, March 5, with all services resuming.

We appreciate your understanding and flexibility while our school staff goes through the vaccination process.

Sincerely,
Dr. Reid
