Subject: Summer Packets

Parents/Guardians,

It is important for students to continue to work on and refine their reading and math skills over the summer. We have created summer packets for students to help sharpen their skills and prepare them for their return to school in August.

Each grade level math packet has a daily activity that can be fun and exciting when family members take part and assist. For reading, please have your child read to you or you can read to your child for 20 minutes each night. Let your students pick out the books. Ask your child questions about the characters, setting, and plot of the stories you read. It is important for students to hear from you on what good reading sounds like and students will value reading because they see their parents reading as well.

Summer packets will be sent home with in-person students next week. Parents and guardians of remote learners can come to Adrian between 8:30 a.m. – 3:00 p.m. and pick up the summer packet for their students.

I hope everyone has a relaxing, safe and fun summer. We all deserve it!

Mr. Lasky
