

Dear Preschool Parent/Guardian,

The office of Early Learning and School Readiness has requested that school districts report preschool special education data to assist in establishing consistency throughout the state. This data collection form helps identify enrollment and staff to student ratios. In addition, test data will only be provided to the state with your permission. Please sign the permission below to indicate your preference. If you have any questions regarding testing, please contact your child's preschool teacher at 216-691-2200.

Thanks for your support and assistance in this matter.

Sincerely,

Lee Fuller

District Preschool Coordinator

You may release preschool test data to the Office of Early Learning and School Readiness.

You may **NOT** release preschool test data to the Office of Early Learning and School Readiness.

Student Name: _____ School Year: _____

Parent/Guardian Signature: _____ Date: _____
